

Our Services

Recruitment

We offer recruitment services on specified positions; both high level and difficult to fill positions for national and international projects. Through our network of partners national and internationally, recruiting from outside and inside Norway, while also offering language training and relocation support.

Project Management

Project Management and system implementation national and international. Experience in implementing HR and Quality systems. Example modules: Core HR system - master data, performance management, succession planning, compensation and incentive schemes.

Leadership Development

Custom made programs for management and leadership development. Individual management support is targeted to top or middle management

HR Consultancy / HR as a service

We can offer legal advice in all aspects of HR related and Employment law. We can also help with creating and reviewing HR Governing Policies. You can outsource your HR department to us; we can act as your internal HR advisor and business partner.

Regulatory Services

Full GDPR implementation, advice and/or serve as your external DPO (Data Protection Officer). Regulatory quality audits and/or gap analysis of your existing programs.

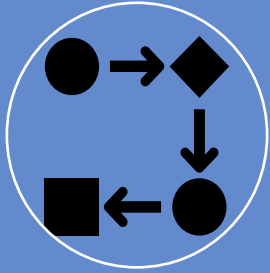

Start up advices

Sharing of experiences, mentoring and conversation partner when starting up- and/or running a company, national and/or international. What to be aware of - smart to do- not do.
